

Dear Participants,

At the start of this new cycle of courses in the Inter-American Training Program (PIC from its acronym in Spanish), the IIN-OAS warmly welcomes you, trusting that this activity will meet your expectations.

The PIC has as its basic objective contributing to capacity building in OAS member states and in organized civil society, thus contributing to halting the erosion of child and adolescent rights, deepening a *“Rights based Culture”*.

Thus we invite you to embark on this journey of learning in an active and committed way, strengthening your capacity in theoretical / practical concepts, exchanging information on experiences in the region, and reflecting on the daily practices of promoting the rights of children and adolescents.

**Office of the IIN Director General**
