

Dear Participants,

At the start of a new cycle of courses in the Inter-American Training Program (PIC from its acronym in Spanish), the IIN-OAS warmly welcomes you, trusting that this activity will meet your expectations.

The PIC has as its main objective to strengthen the capacities of OAS Member States and organized civil society, through the development of training processes in different modalities on various subjects, in order to advance towards the promotion of the rights of child and the eradication of all forms of violation, deepening a *“Rights based Culture”*.

Thus we invite you to embark on this journey of learning in an active and committed way, strengthening your capacity in theoretical concepts as well as exchanging information on experiences in the region and reflecting on the daily practices of promoting the rights of children and adolescents.
