

Dear participants,

We warmly welcomes you to the Inter-American Training Program (PIC from its acronym in Spanish), hoping that it will meet your expectations.

The PIC has as its main objective to strengthen the capacities of States and civil society, for the promotion and protection of the exercise of the rights of the child, through the development of training processes in different modalities, on various subjects.

We invite you to embark on this journey of learning in an active and committed way, strengthening your capacity in theoretical concepts as well as exchanging information on experiences in the region and reflecting on the daily practices of promoting the rights of children and adolescents.

**Office of the IIN Director General**
